MARVIN NGATIA MIANO

Software Engineering Student

Email: marvinmiano13372@gmail.com
Phone: 0702 915 047
Address: P.O. Box 18940-00500, Utawala
Date of Birth: 04 August 2007
Nationality: Kenyan
Languages: English, Swahili
Gender: Male

PROFESSIONAL PROFILE

Highly motivated Diploma in Software Engineering student with a strong foundation in Java, Python, SQL, and C/C++. Experienced in Full-Stack development and data collection methodologies, with a keen interest in Cloud Computing, Cybersecurity, and Agile practices. Adept at communicating complex technical concepts and committed to contributing meaningfully to innovative engineering teams.

EDUCATION

Year	Institution	Qualification
2026	Cisco Networking Academy	Certificate — Introduction to Cybersecurity
2026 – 2027	Zetech University	Diploma in Software Engineering
2022 – 2025	Olkejuado High School	Kenya Certificate of Secondary Education (KCSE)
2011 – 2021	Stelurm Elite School	Kenya Certificate of Primary Education (KCPE)

CORE COMPETENCIES

- Data Collection: Proficient in both quantitative and qualitative data gathering methodologies.
- Technical Skills: Advanced knowledge of C, C++, Java, SQL, and Microsoft Excel for data entry and analysis.
- Mobile Data Tools: Hands-on experience with ODK and KoboToolbox for field research applications.
- Communication: Skilled at engaging adolescents and young people (AYP) in professional yet relatable dialogue.
- Research Ethics: Strong understanding of confidentiality, data integrity, and ICT ethics principles.
- Youth Mobilization: Deep understanding of Kenyan youth communication trends for participant recruitment and retention.

• Contextual Communication: Able to translate complex health or technical information into accessible, peer-level dialogue.

WORK EXPERIENCE

Student Peer Mentor *2026 – Present*
Zetech University

• Facilitate group discussions among peers regarding academic progress and technical projects.
• Developed strong interpersonal skills essential for conducting interviews and surveys with the AYP demographic.

Freelance Data Entry & Academic Support At zetech University *Feb 2026 –March 2026*

• Assisted in the organization of financial ledgers and trial balances, ensuring precise record-keeping.
• Gained experience in maintaining focus during repetitive, high-detail data collection analysis tasks.

Data Collection on Routine Immunization and HPV vaccine- Girl Effect *Apr 2026-May 2026*

- Conducted Household data collection using structured questionnaires and digital tools
- Ensured accurate and ethical data handling while maintaining confidentiality of respondents.
- Collaborated with field supervisors and health officials to meet daily coverage targets.
- Gained practical experience in data entry, survey coordination and public health research.

TECHNICAL SKILLS

• Programming Languages: HTML, CSS, Java, Database, and Python .
• Productivity Tools: Microsoft Office Suite (advanced Excel & Word), Google Workspace.
• Mobile Platforms: Android expert-level familiarity — beneficial for mobile-based field research.
• Networking: Introduction to Cybersecurity (Cisco Academy certified).

PROJECTS

- ***Student Management System:*** A database-driven system for recording student details, courses and grades. **Technologies:** Python, SQL

- ***Victory School Club Membership System:*** A comprehensive system designed to handle student club registrations, data tracking, and membership management efficiently. **Technologies:** Database Design, HTML/CSS, Backend Logic

- ***Personal Budget Tracker***: A planned application to help students' record income and expenses. **Technologies:** Python, SQLite

INTERESTS & ACTIVITIES

• Exploring new technologies, programming projects, and emerging innovations.
• Researching Artificial Intelligence, Cybersecurity, and tech industry trends.
• Networking, computer maintenance, and online learning via tech tutorials.
